

I Corinthians 13:1-8

**FAULTY STANDARDS
OF FAITHFULNESS**

FAULTY STANDARDS OF FAITHFULNESS

God expects for us to take time to evaluate our spiritual health.

We often seek to use faulty standards of faithfulness in order to look better.

- The faith of others.
- Our past way of living.
- Fulfilling Christian duties.
- Our level of Biblical knowledge.
- Other quantifiable measurements.

FAULTY STANDARDS OF FAITHFULNESS

God expects for us to take time to evaluate our spiritual health.

We often seek to use faulty standards of faithfulness in order to look better.

Using faulty standards does nothing but stunt our spiritual growth and health.

We must be honest in our evaluations, and seek to know if we are truly “in the faith.”
