# Improving Our Interpersonal Relationships

## The Problems (In The Box):

We see ourselves as more important or more entitled than others.

We view others as being tools to accomplish our own desires.

We fail to consider that our issues with others might be of our own doing.

We fail to do to others as we know that we ought to do.

## The Solutions (Out Of The Box):

View others as more important than ourselves.

See others as what they are...people.

Objectively examine ourselves.

Do the right thing towards others.
